Welcome to Spring/Summer 2019, a season full of exciting design possibilities with a fresh new look for interior and exterior spaces.

From citrus brights and blush pinks to nature's greens and ocean blues, here at Artisans of Devides we have everything you need for your next project. Choose from a wide range of innovative new products such as the rectangular Camden ceramic tile in five on-trend colours or our decorative Havana encaustic design and mix it up by combining with some of our classic pieces such as terracotta or marble.

To offer some early inspiration, we've created five eye-catching mood boards that show how a combination of new and existing pieces can really bring a scheme to life.

one.

Bringing the outdoors in, this first mood board captures a feeling of fresh air and nature thanks to a complementary combination of blues and greens with some unusual shapes to add further interest.

Our new collection of bevelled gloss **Camden ceramic tiles** teams the ever-enduring rectangular shape with new shades such as Liquorice, Green, Aqua and Light Tan. Another new addition, **Kennet** in Bottle Green, provides immediate contrast against the **Neisha Crosland Jigsaw Moghul Patch** encaustic design with its diamond shape, the **Yoga Penny Porcelain Mosaic** and **Clay Atelier collection** in a striking scallop style.

Bringing a touch of geometric flair to the scheme is our new **Neapolitan porcelain** hexagonal tile with an eye-catching zig-zag finish.

Pink is big news in interiors right now and its soft, delicate tones are set to last well into Spring/Summer and beyond.

This is a palette that works especially well in both classic and contemporary decors as it complements almost any other shade and can be toned down or brightened up with ease.

Here, we selected the slimline **Dolly ceramic** tile in Rosa and Warm Grey to contrast with the **Inker porcelain** marbelised tile in both Pink and Silver. We found the perfect match with our current **Floris encaustic** design in Rose, the **Bazaar ceramic** décor tile in Rose Mallow and the distinctively shaped **Clay Atelier Arabesque** shown on the bottom left.

8. Camden Metro Ceramic | 9. Floris Encaustic

three.

This year at Artisans of Devizes, along with celebrating 30 years in business and introducing a raft of new products, we're also launching a brand new terracotta series.

This traditional stone tile is part of the new archive **Marlborough Terracotta Collection** and offers interior designers and architects the opportunity to bring this classic material back into modern homes. Terracotta is such a versatile stone, as it can easily be mixed and matched with tiles in varying shapes, sizes and shades to create something truly unique.

Here, we've added our new decorative **Havana encaustic** tile with its stunning star and square pattern repeat and clashing colour combination alongside the **Seaton ceramic** Candy Floss square metro tile. To bring some extra depth to the scheme, our **Chemistry porcelain** in Rust adds a rustic, metallic element.

3. Seaton Ceramic | 4. Havana Encaustic
5. Marlborough Terracotta Square | 6. Clay Atelier Star

In this visual we've gone all out for the blues and are kicking things off with our **Neapolitan porcelain** stripe tile, which is also available in Aqua, Black, Yellow and Pink.

This versatile piece can be laid in a variety of ways to create different looks, each offering instant impact ideal for feature walls and splashbacks. For a bold block of colour, our **Kennet** rectangular tile comes in a new deep blue shade and provides the perfect contrast against our classic **Dolly** and **Camden** ceramic designs in fresh white tones.

For an on-trend industrial feel, we've added the **Chemistry porcelain** product in Reef and Verdigris, which is great for high traffic areas, as well as the marble-effect **Inker** and unusually shaped **Clay Atelier** in a beautiful blue.

Our sunshine yellow mood board jumps off the page and is bursting with summer cheer. Creating instant impact is our hexagonal **Neapolitan** striped porcelain tile in Yellow, which looks stunning beside the **Lily Pad porcelain** in Custard.

Lily Pad has swiftly become one of Instagram's hot interior trends and its distinctive starburst design comes in a stunning selection of colours.

Dolly ceramic in Giallo adds a modern take on the traditional brick tile with its gloss finish and bevelled edge while **Inker** provides the marble effect. For this visual we've also added classic designs such as the **Aliseo marble**, the 3D effect **Adam encaustic** in Sulphur, the **Seaton ceramic** in Sunshine and the **Clay Atelier Relief** tile with textured surface.
